

Discover The Quick and Easy Way to Get a Powerfully Insightful Read of Your Leadership Culture

The Leadership Circle Culture Survey™ (TLCS)

The Leadership Culture Survey (TLCS) identifies the gap between your current leadership culture and your desired one. It also measures how the leadership culture within your organization and/or team compares to that of other organizations. It fits seamlessly with *The Leadership Circle Profile™*, both build from the same framework. *TLCS* creates a very compelling rationale for change. It is very affordable, internet based, user friendly, and results are downloadable. This means that over a lunch break, you can conduct a thorough and valid assessment of your team's leadership style.

The Leadership Culture Survey™ will:

- Establish a compelling rationale for change.
- Focus leadership development efforts.
- Delineate leadership cultural challenges associated with acquisitions, mergers and restructuring plans.
- Correlate leadership to productivity, profits, turnover, and other bottom line metrics.

****The Leadership Circle Culture Survey™(TLCS) was developed and is owned by The Leadership Circle™.***
